DIPLOMA OF AVIATION  
(COMMERCIAL PILOT LICENCE – AEROPLANE)^  
National Code: AVI50215

Duration 2 Years

Delivery Part Time

Start Date Visit boxhill.edu.au for start dates

Outcomes Students who successfully complete the course will be awarded diploma competencies and be eligible to undertake the Civil Aviation Safety Authority (CASA) licence tests for the following qualifications:
› Recreational Pilot Licence (RPL)
› Private Pilot Licence (PPL)
› Commercial Pilot Licence (CPL)

The following endorsements will also be achieved:
› Propeller Pitch Control Endorsement Constant Speed Unit (CSU) endorsement
› Night Visual Flight Rules (NVFR) rating

Privileges of Licence A CPL allows you to pilot a flight for private or commercial reasons, in a single engine aircraft with a maximum take-off weight of less than 5,700kg during hours of daylight. The NVFR Rating allows these operations to be also flown at night.

Pre-requisites  

Domestic Students Domestic applicants must:
› hold or be able to hold a CASA Class 1 Medical (see Medical requirements); and
› be at least 18 years or over when their Commercial Pilot Licence (CPL) is issued; and
› have a minimum pass of 50% in Year 12 (or equivalent qualification).

International Students International applicants must:
› hold or be able to hold a CASA Class 1 Medical (see Medical requirements), and
› be at least 18 years or over once their CPL is issued; and
› show proof of an Aviation Language International Test of English (ALITE) of at least level 4 (operational English) or above, before they are able to fly solo during their flight training or before they can complete their Private Pilot Licence exams (PPL).* 

Successful entry to the Diploma of Aviation (Commercial Pilot Licence – Aeroplane) for international students is based on English proficiency and your academic record. Entry will be considered on the basis of past secondary study, employment skills or work experience. Applicants are required to provide evidence of their English language ability and may be required to sit a pre-entry English test.

Medical Requirements:  
To show they are medically fit and healthy to pilot an aircraft during commercial operations, applicants need to hold a Class 1 Aviation Medical. Aviation medicals are completed in a two-step process:

Step 1. Obtain an Aviation Reference Number from the Civil Aviation Safety Authority:
Complete Form 1162 and send to CASA with identification.
Once you have received your ARN:

Step 2. Book in for a Class 1 Medical with a Designated Aviation Medical Examiner (DAME).
Visit casa.gov.au for full details on medical requirements, DAME locations and to obtain form 1162.

Fees $79,999 AUD (VET FEE-HELP available*)

Inclusions:  
The course fee includes all flight training, theory, textbooks, uniform, SAFT flight test fees (for the first attempt only), navigation equipment, and initial issue Airservices Australia maps/charts and CASA documents. Should the student require additional training or have to re-sit any flight tests, the additional cost will be charged at current published rates.

Exclusions:  
Issue of licences are not included and are payable directly to CASA.

Need to improve your English skills?  
Box Hill Institute provides English as an Additional Language classes from beginner right through to advanced and can help you meet the English language requirements of the course. Visit boxhill.edu.au for full details.

^Students undertaking this course will be enrolled at Box Hill Institute (BHI). Soar Advanced Flight Training (SAFT) is contracted by BHI to deliver the training and assessment on BHI's behalf. Upon completion, you will receive certification from Box Hill Institute.

*VET FEE-HELP is subject to eligibility criteria. *This requirement is set by the International Civil Aviation Organisation (ICAO)
